

USAF F-302 (Stargate)

By Bongmaster

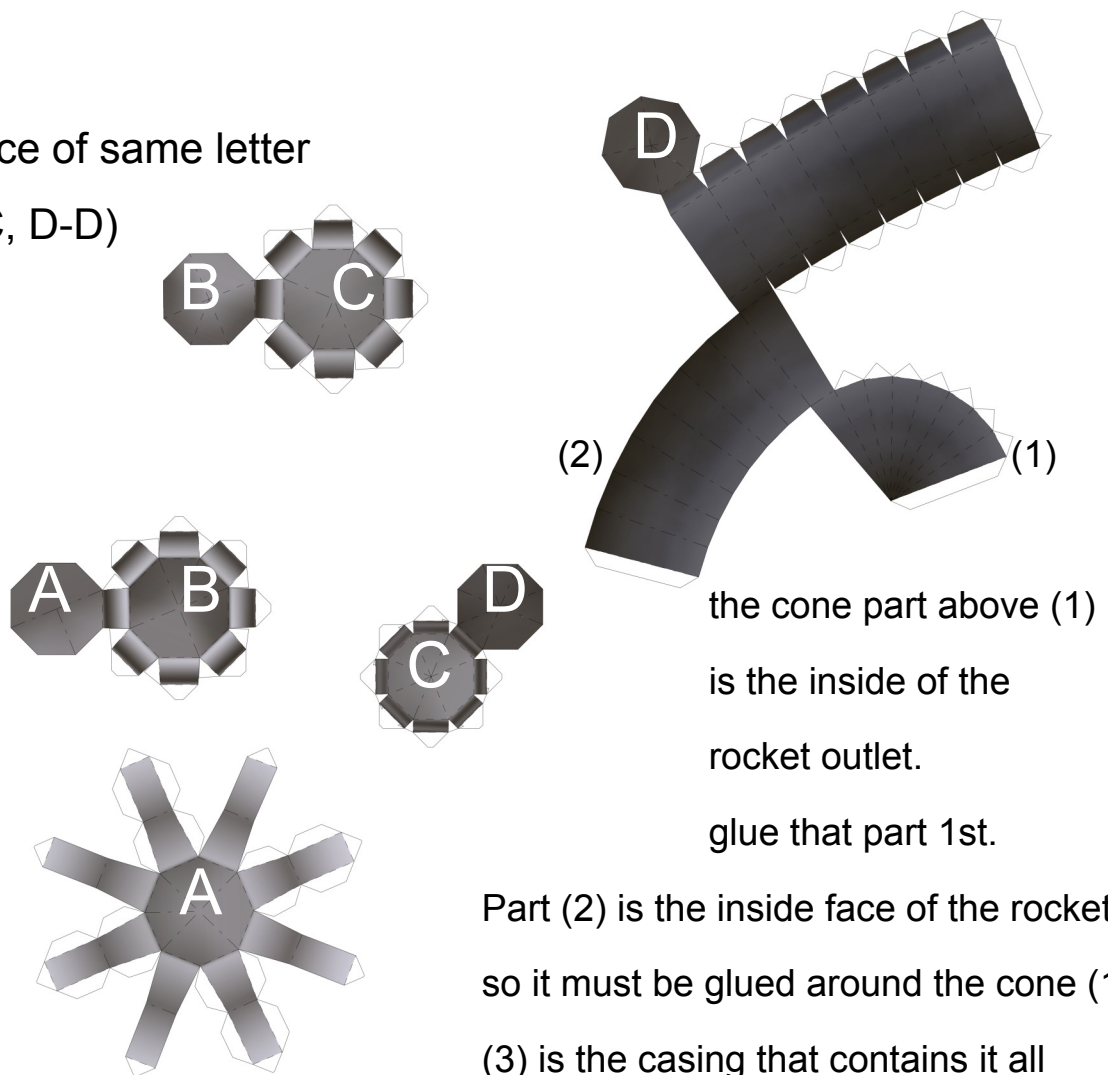

This is my F-302 paper model, from Stargate SG-1.

I have layed out the parts as best as i can to make it easier to see where each part goes, and what it belongs to.

it should be pretty straight forward, but one or two parts need explaining.

Glue part to face of same letter

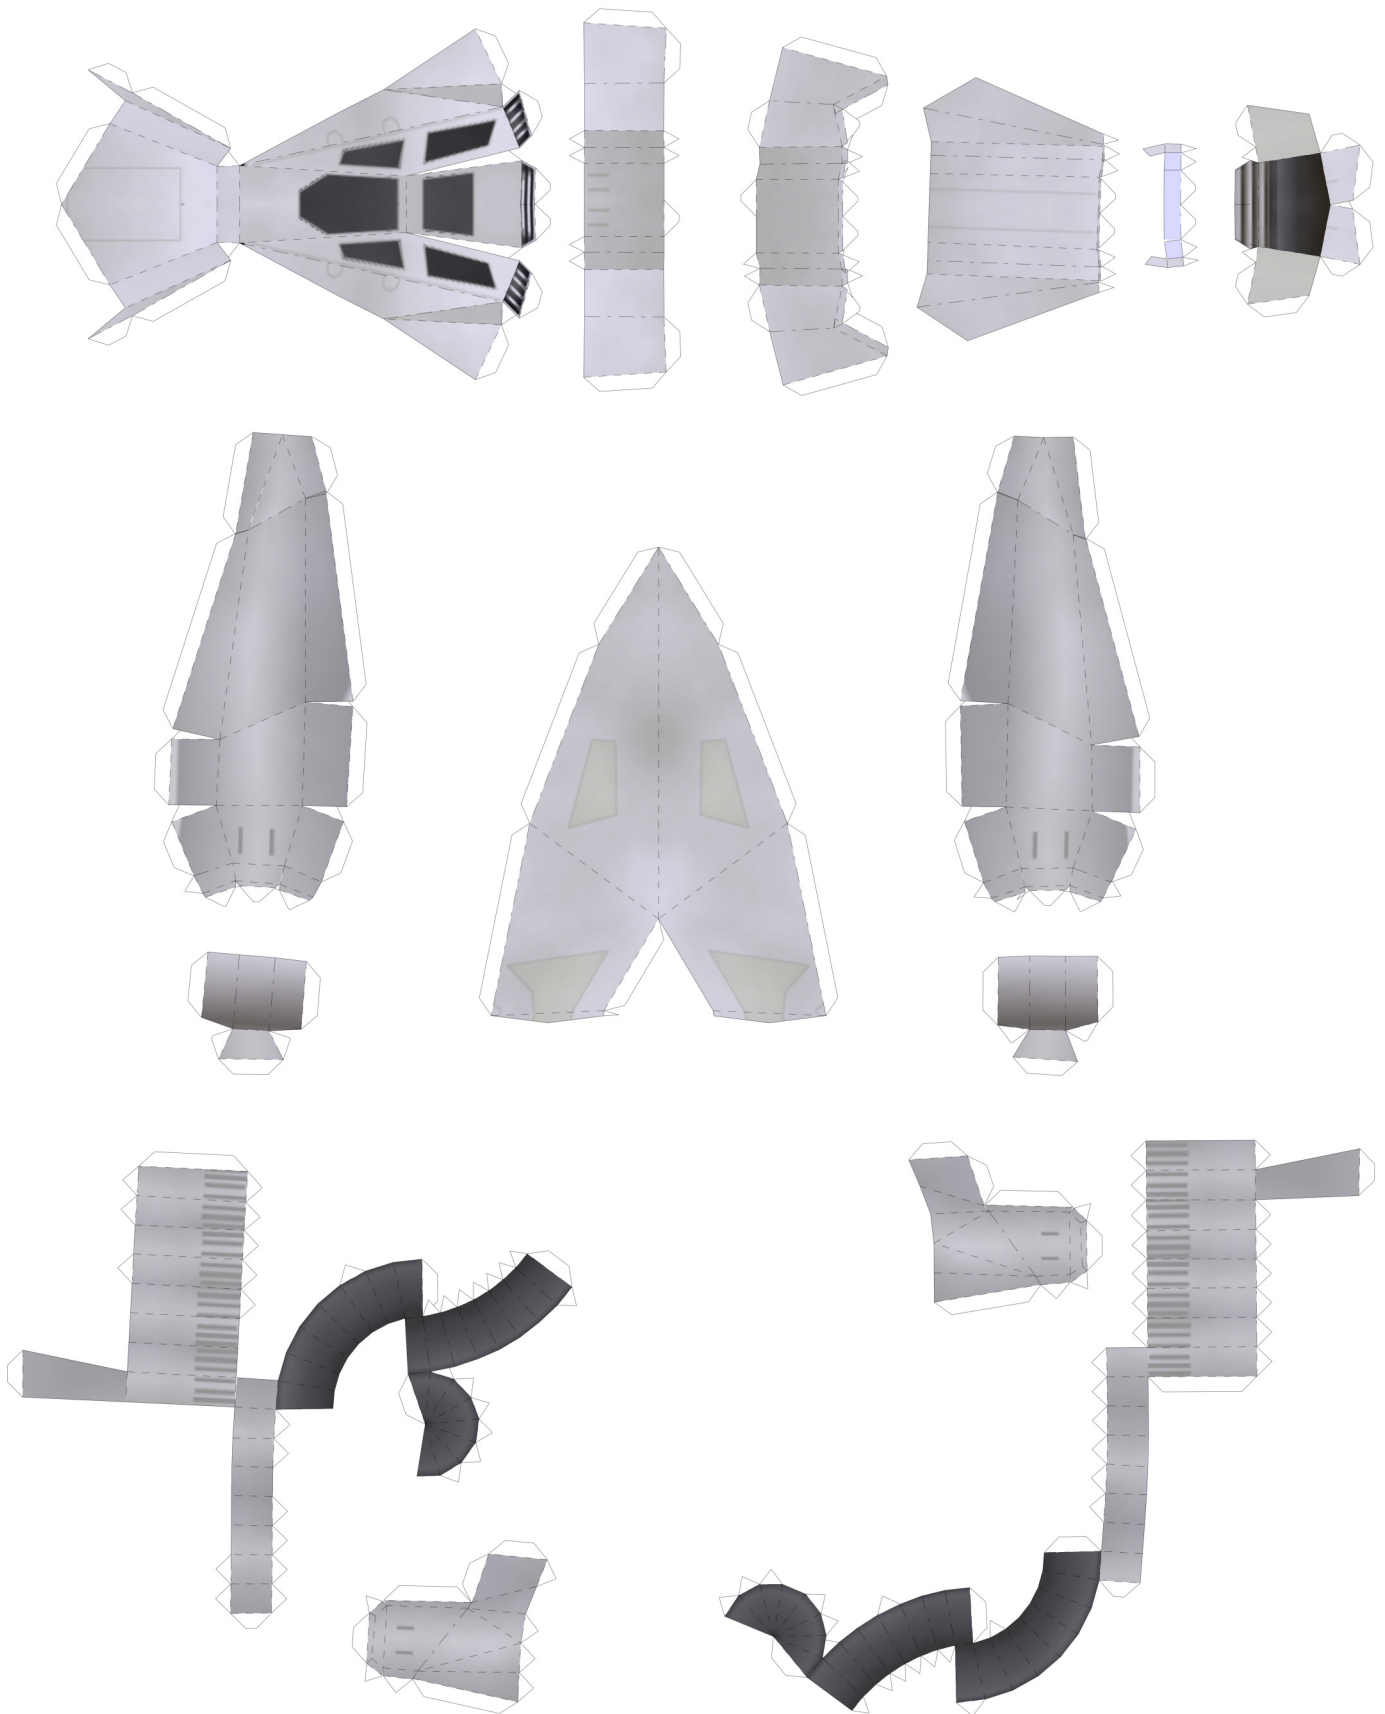

(A-A, B-B, C-C, D-D)

the cone part above (1)
is the inside of the
rocket outlet.

glue that part 1st.

Part (2) is the inside face of the rocket outlet
so it must be glued around the cone (1)
(3) is the casing that contains it all
and goes around part (2)

Make the jets on each nacelle the same way u made the rocket outlet
(cone, inside face, outside casing)
